

## INSTALLATION AND OPERATING INSTRUCTIONS

KEEP ALL PLASTIC AND WIRE PARTS AWAY FROM CHILDREN

1. Find Gutter Clip with Solar Panel. Carefully remove film covering from the Solar Panel.
2. Place Gutter Clip with Solar Panel in direct sunlight.  
*Note: To fully charge the Solar Panel, charge in direct sunlight for 13 hours.*
3. Find 3 nylon loops on reaper. Attach loops onto Gutter Clips. (see illustration A & B)  
*Note: Gutter Clip with Solar Panel should be attached to the center loop located directly above the reaper's head.*
4. Hang Gutter Clips on gutter. (see illustration C) Adjust arms away from head to achieve desired look.
5. Tighten thumb screw to secure Gutter Clips onto gutter. (see illustration D)
6. Insert Yard Stake into ground underneath Gutter Reaper. Locate the grommet on end of fabric, then extend attached 12 foot rope to Yard Stake and secure rope to the Yard Stake. (see illustration E)  
*Note: Tie a knot in the rope around the stake for the length of rope needed.*
7. Locate the switch on the Gutter Clip with Solar Panel and press switch in to place into the 'ON' position. (Switch is located on the underside of the Gutter Clip with Solar Panel) Place switch into the 'OFF' position by depressing inward and releasing. Keep the switch in the 'OFF' position when not in use.

*Note: Light in face will function only in darkness and automatically turn on and off (no need to turn the switch to the 'OFF' position). Solar Panel will automatically recharge with direct sunlight.*

### WARNING!

**Strangulation Risk! Keep cable away from children.  
This is not a toy. For decoration only. This product is intended for use by  
persons 15 years of age and older.**
